<b>Name: SNAKE ankle high shoe</b>	<b>Code: MB3016Z9</b>	<b>MB30 FOOTWEAR - SIR FUTURE SERIES POWERED BY RESPONDER TECHNOLOGY</b>
------------------------------------	-----------------------	--

**Description**

ESD Ankle-high shoe with an ultra-dynamic design, featuring aluminium toecap and PS-Type composite midsole with constant thickness. Fitted with action nubuck leather upper with closure with laces and reflective inserts. E-TPU Responder/rubber outsole provides an excellent elasticity and cushioning effect: the midsole made of expanded thermoplastic polyurethane spans the entire sole of the foot, offering flexibility and full responsive cushioning. The rubber outsole, thanks to its deep longitudinal grooves, accentuates the flexibility of the sole and ensures excellent grip on all types of surfaces. SRC slip-resistant. The RESPONDER insole is composed of a compound that bounds together thousands of E-TPU beads with high elasticity and resilience properties. Lined and perforated in the plantar area with outstanding anti-shock properties. Antistatic. The 3D-TEX polyester honeycomb weave lining with extra protection in the heel area allows ventilation of the foot and reduces sweating.

**Main features:**

- The patented RESPONDER technology used in the midsole and insole, provides outstanding responsive cushioning, extreme lightweightness and flexibility over the entire surface of the foot, thus assuring excellent performance even after prolonged and intense use.
- Prismatic high-intensity iridescent reflective inserts for extra visibility in low-light conditions.
- The heel stabilizer prevents foot fatigue and improves foot stability.
- The additional overcap protects the shoe from shocks.

The product has been designed and manufactured to comply with Regulation (EU) 2016/425 and subsequent amendments.

The original footbed supplied with the shoe can be replaced, without voiding the ENISO 20345, by the orthopedic footbed SENSOPED ESD by Franz Seidel GmbH, which is compliant with the standard DGUV 112-191.

Dexterity

The footwear should be stored in a cool dry place, far from heat sources and direct light. Make sure footwear is in good condition, before use. If the shoes are damaged, replace them.

Clean the footwear with a soft brush and water.
