

POSITIONING SYSTEMS

Tripod with rescue lifting device

FD121800

DETAILS

- Telescopic aluminum structure, lightweight, robust, and corrosion-resistant;
- Stable three-point support, maximum safety and operational stability;
- 20 m galvanized steel wire rope, high mechanical strength and long lifespan;
- 4.8 mm cable diameter, excellent balance between strength and smooth operation;
- Integrated carabiner, quick and secure connection to protective devices;
- Height adjustable from 1.15 to 2.13 m, great adaptability to various operational contexts;
- Maximum load capacity 120 kg, suitable for operator retrieval and protection;
- Ideal for confined spaces, perfect for wells, sewers, elevator shafts;
- Injured person retrieval function, total safety even in emergency situations.

FEATURES

Professional tripod made with a telescopic aluminum structure and three-point ground support, designed to ensure maximum stability during operations in confined spaces and vertical environments. The system is equipped with a galvanized steel wire rope with a diameter of 4.8 mm and a length of 20 meters, complete with a carabiner at the end for a quick and secure connection to fall arrest or rescue devices. The tripod is the ideal solution for the maintenance and inspection of wells, sewers, elevator shafts, and similar environments, also allowing for the safe recovery of unconscious or injured personnel. The height is adjustable from 1.15 m to 2.13 m, adapting to various operating conditions, with a maximum load capacity of 120 kg. The combination of aluminum's lightness and the structure's robustness makes it a reliable, practical, and durable device for intensive professional use.

CERTIFICATIONS AND STANDARDS

EN 1496
Class: A

ANCHORAGE DEVICES
EN 795

CATEGORY

III -> This product is currently planned and produced to comply with Regulation (EU) 2016/425 and subsequent modifications.

FIELDS OF USE

- > Construction - road works
- > Works at a height

MAINTENANCE

Store in a cool and dry place, away from heat sources and protected from light.
